"The life formula “satisfaction = expectations minus reality” was blown out of the water these past two days. I come into these sessions with very high expectations. You and the team produced two days of stunning resources, content, and discussion ranging from President Zelensky to police-community legitimacy. The intellectual and emotional stimulation was superb. Thanks so much!!"
- Greg Fisher; Mayor; Louisville, Kentucky

"As we wrap up the 2022 Mayors College and CEO Summit, please let me express the sincere gratitude of all the mayors who had a chance to attend. Each of these events is a fantastic and meaningful way to connect, engage and develop leadership skills. This year, it was extra special. You put us on the forefront of world events and brought us in contact with great leaders, including President Zelensky, Mayor Trzaskowski from Warsaw and leading minds in public health, corporate leadership and public policy. As I have said before, there is no event like this and the mayors really appreciate the opportunity. Thank you.”
- RJ Berry; Mayor; Albuquerque, New Mexico

"It is becoming increasingly difficult to find common ground solutions to the challenges that are confronting our cities, our businesses and the people we serve. This year’s events provided a platform for these types of solutions and I hope we can continue to build on these small – yet important – steps. The insights I gained from my fellow panel members has been an extremely valuable tool in shaping my thinking on these subjects. I have already begun to ask my leadership team to develop ways to implement some of the best practices I learned about at the College and Summit.”
- Byron W. Brown, Mayor, Buffalo, NY

"Once again, the Yale Mayors College / CEO Summit was an inspiration and wonderful learning experience.”
- Madeline Rogero; Mayor; Knoxville, Tennessee

“I look forward to these events all year. Please don’t change anything – even the arts, public safety, financial, infrastructure topics. Right now, you cover something for all of us – you may have the perfect recipe now.”
- Stephanie Miner; Mayor, Syracuse, New York

"The willow tree "falling water = expectations minus reality" was blown out of the water these past two days. I come into these sessions with very high expectations. You and the team produced two days of stunning resources, content, and discussion ranging from President Zelensky to police-community legitimacy. The intellectual and emotional stimulation was superb. Thanks so much!!"
