Teaching (current and recent):

Competition Economics and Policy: Elective MBA course covering topics in competition enforcement such as cartels, horizontal mergers, monopolization, vertical restraints, exclusive dealing, MFNs, predatory pricing, and IP. The law is taught but the focus is on economics and managerial implications.

Competitive Strategy: Elective MBA course covering topics in IO such as price and quantity competition, entry, and antitrust, as well as strategy concepts such as industry analysis, competitive advantage and sustainability.

Firms, Markets, and Competition: Undergraduate Industrial Organization course that focuses on models and concepts needed to analyze competition

Andrea Coscelli (Stanford GSB, 1998; University College London)

Competition Policy Scholarly Activities:

In 2019 Scott Morton founded the Thurman Arnold Project at Yale, named in honor of Thurman Arnold, Yale Law Professor and head of the Antitrust Division from 1938-43, to capture the intellectual and enforcement tradition he represents, as well as his zeal for achieving competitive markets for the people of the United States. The project is supported by grants from the Knight Foundation, the Omidyar Network, Microsoft Corporation, and the Anti-Monopoly Project of the Hopewell Fund. The project, TAP@Yale, brings together Yale faculty, students from the Law School, SOM, and FAS, as well as scholars from other institutions to collaborate on education and research related to competition, competition policy, and antitrust enforcement. The goals of the project are to generate rigorous scholarship and policy ideas and to disseminate those through multiple channels to impact competition enforcement around the world.

Professor Scott Morton also is co-PI on grants and helps lead the Initiative on Competition and the New Digital Economy at the Tobin Center for Domestic Policy at Yale University: [Tobin Center \(yale.edu\)](http://TobinCenter.yale.edu)
